Dear Valued Customers and Business Partners,

PT Arindo Berkah Sejahtera is committed to delivering reliable industrial solutions through high-quality cutting tools, metrology instruments, machinery accessories, and precision technology products.

Since our establishment, we have continuously focused on providing trusted products, responsive service, and technical support to meet the evolving demands of modern manufacturing industries.

We believe that precision, consistency, and long-term partnerships are essential in supporting our customers' productivity and operational excellence. Therefore, we continuously improve our capability, product range, and service quality to become a dependable partner for various industries in Indonesia.

We sincerely appreciate the trust and support from all customers, partners, and stakeholders who continue to grow together with us.

We look forward to building stronger collaboration and contributing to the advancement of the industrial sector in the future.

NUNUNG INDRIAWATI

Director

Market Coverage

Manufacturing and Industrial Companies Across Indonesia

VISION

To become a trusted partner in precision industrial solutions and manufacturing support in Indonesia.

MISSION

01

Provide high-quality industrial products and precision technology solutions for manufacturing industries.

02

Deliver responsive service and professional technical support to ensure customer satisfaction.

03

Build long-term partnerships through trust, reliability, and consistent product quality.

04

Support customer productivity and operational efficiency with reliable industrial solutions.

OUR PRODUCT RANGE

XRF instruments

FISCHERSCOPE® X-RAY XRF instruments provide precise, fast, and reliable non-destructive coating thickness measurement and material analysis solutions, designed to support various industrial quality control applications with advanced technology, user-friendly operation, and high measurement accuracy.

OUR PRODUCT RANGE

Tactile measuring devices

Fischer tactile measuring instruments provide precise, fast, and flexible solutions for coating thickness measurement and material testing applications with advanced probe technology and efficient data management systems.

OUR PRODUCT RANGE

DINDAN

DINDAN provides reliable enclosure cooling solutions designed to maintain temperature stability and protect electrical control systems, supporting efficient and safe industrial operations across various manufacturing applications.

OUR PRODUCT RANGE

Dino-Lite® Digital Microscope

Dino-Lite provides advanced digital microscope solutions designed for inspection, measurement, quality control, and research applications, delivering high-resolution imaging with practical and user-friendly operation for various industries.

OUR PRODUCT RANGE

Mitutoyo

Mitutoyo provides high-precision metrology and measurement solutions, offering a comprehensive range of instruments designed to support quality control, inspection, and manufacturing accuracy across various industrial applications.

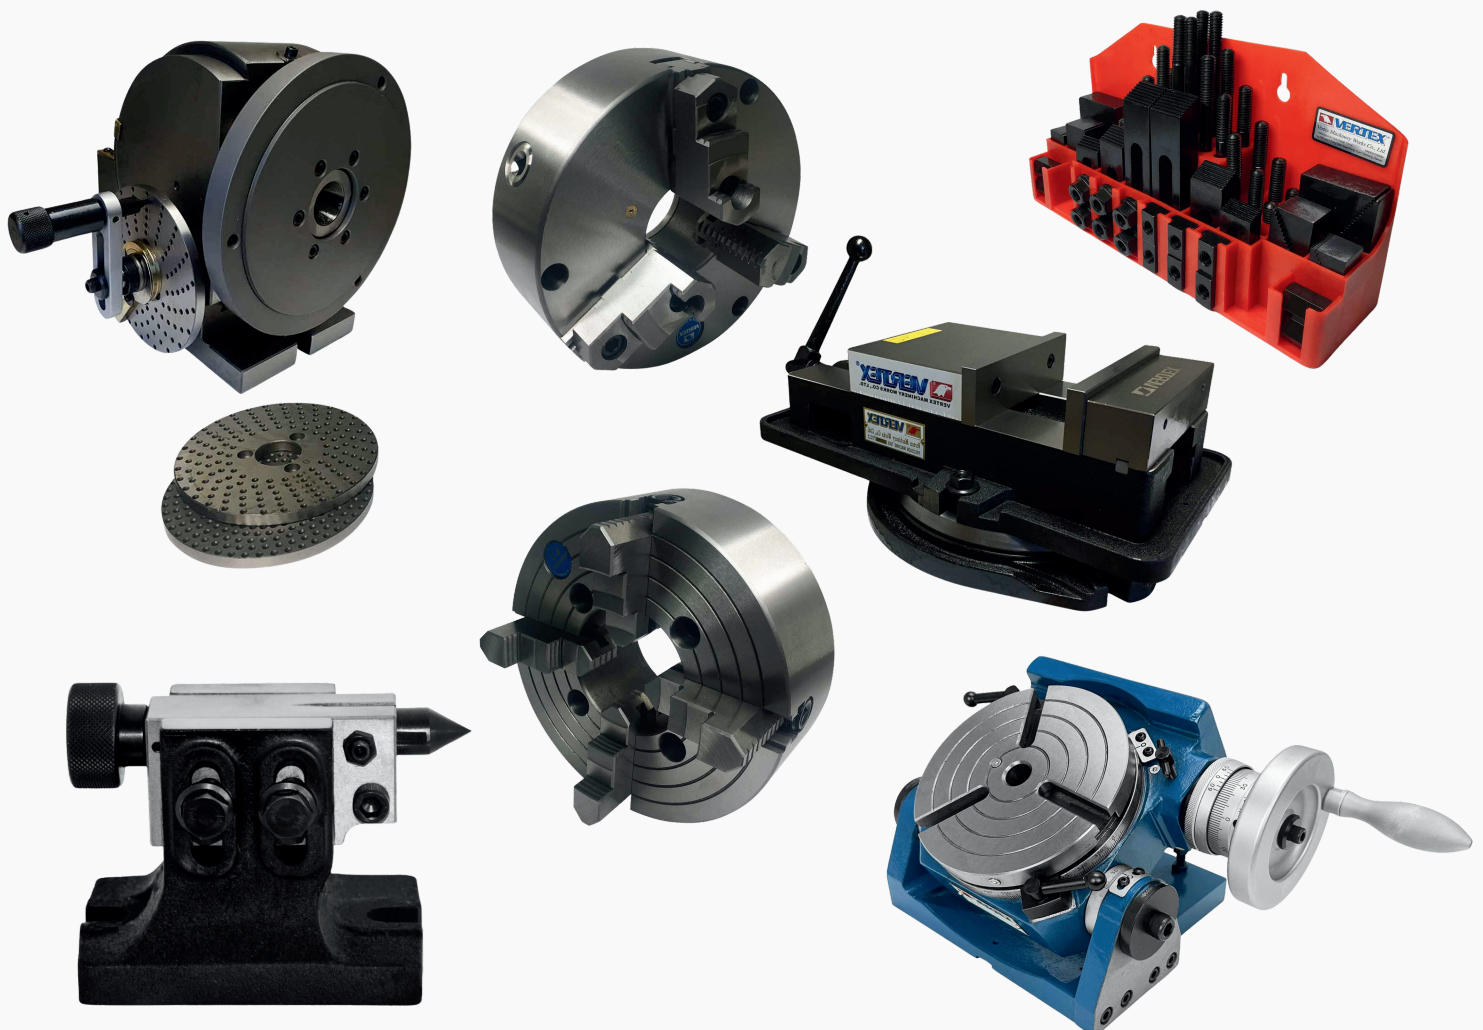

OUR PRODUCT RANGE

VERTEX provides high-quality machine tool accessories and precision workholding solutions designed to support machining accuracy, operational efficiency, and reliable performance for various industrial manufacturing applications.

OUR PRODUCT RANGE

YG-1 provides high-quality cutting tools and machining solutions designed to deliver precision, productivity, and reliable performance, supporting various industrial manufacturing applications with advanced technology, consistent quality, and efficient machining processes.

OUR PRODUCT RANGE

YAMAWA provides high-quality threading tools and tapping solutions engineered for precision, durability, and efficient machining performance across various industrial manufacturing applications.

OUR PRODUCT RANGE

NACHI

Cutting Tools

NACHI provides high-performance cutting tools and industrial solutions engineered for precision, efficiency, and reliability, supporting various machining and manufacturing applications with advanced technology, consistent quality, and excellent cutting performance.

OUR PRODUCT RANGE

SOMTA provides premium cutting tools engineered for precision, durability, and high machining performance to support a wide range of industrial manufacturing applications.

OUR PRODUCT RANGE

三井
SHAN GIN

SHAN GIN specializes in precision indexable cutting tools and tool holders, providing reliable machining solutions for turning, milling, drilling, threading, and boring applications across various industrial manufacturing sectors.
